EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

2. This application is in condition for allowance except for the presence of claims 1-13, 48, and 50-66 drawn to an invention non-elected without traverse. Accordingly, **claims 1-13, 48, and 50-66 have been cancelled.**

Applicant should note that the election without traverse made on January 13, 2005 to prosecute the invention of the humidifier, which at that time included claims 1-13, and 35-47, resulted in the Office action mailed March 4, 2005. Applicant's subsequent amendment to the elected group of claims resulted in the holding by the Examiner of an election by original presentation, with respect to the invention that was elected without traverse previously and received an examination on the merits in the Office action mailed March 4, 2005. As such the claims, specifically 1-13, 48, and 50-66, which were withdrawn from consideration as being drawn to an invention other than that elected without traverse on January 13, 2005 have been cancelled herein to allow for the allowance of the claims that have been examined throughout prosecution. Applicant should note that independent claims 1, 50, and 59, which represent the non-elected invention (combination) cancelled herein are clearly patentably distinct from the

elected and allowed invention (subcombination) in that the combination claims do not require the fluid level detection mechanism, as required by each of the subcombination claims.
